Promote and Sticky Icon Visibility

Promote and Sticky flags on records can be seen by public or anonymous users.

☐ Show Promote and Sticky flags to public users

Content Ordering Reset

Resets the field_order value to 10000 for all nodes. This creates a new revision for each node with the revision message "Reset ordering". The original last updated date and user are preserved. Use this to normalize content ordering across the site.

Reset Ordering

Reset Promoted Content

Removes all the promoted flags from every content entry.

Reset Promoted

Reset Sticky Content

Removes all the sticky flags from every content entry.

Reset Sticky

Sitemap

☐ Enable public visibility

When enabled, the sitemap will be publicly accessible to all users.
