Francés

A screenshot of a rich text editor interface. The top part shows a horizontal toolbar with various icons for text formatting (bold, italic, underline, link, unlink, text color, background color, bulleted list, numbered list, decrease indent, increase indent, table, table of contents), media insertion (audio, image), and other functions (undo, redo, source code, print, quote, link, expand/collapse). Below the toolbar is a large, empty rectangular text area with a thin border, intended for content creation.

Ruso

A screenshot of the Microsoft Word ribbon, specifically the Paragraph group. The ribbon includes icons for bold (B), italic (I), underline (U), link, unlink, bulleted list, numbered list, decrease indent, increase indent, grid lines, text box, insert audio, insert video, paragraph style dropdown, bullet point removal, undo, redo, HT (text wrapping), hyphenation, quote, unquote, and right-to-left text direction. The word "Párrafo" is visible next to the paragraph style dropdown.

Ayuda sobre las opciones de promoción

Texto de ayuda sobre las opciones de promoción

B U *I*                       

Promoted to front page:

- Content appears in featured listings, homepage blocks, or "promoted" views
- Useful for highlighting important or timely content
- Multiple items can be promoted simultaneously

Sticky at top of lists:

- Content stays pinned at the top of content listings
- Remains at top regardless of publication date
- Multiple sticky items appear before non-sticky content

Using both: Content can be both promoted AND sticky for maximum visibility.

A screenshot of a rich text editor interface. The top part shows a toolbar with various icons for text formatting (bold, italic, underline, link, unlink, text color, background color, bulleted list, numbered list, decrease indent, increase indent, table, table of contents, link, unlink, insert link, insert image, paragraph), alignment (left, center, right, justified), and other functions (undo, redo, source code, print, fullscreen, help). Below the toolbar is a large, empty text area with a light gray background.

Order Override Help

Order Override Help Text

B U *I* Parágrafo — “ Ω <>

Content sorting priority (highest to lowest):

1. **Sticky** – Items marked "Sticky at top of lists" always appear first followed by:
2. **Promoted** – Items marked "Promoted to front page" but sort above the other fields, followed by
3. **Order Override** – A tool for fine grain ordering. Lower numbers appear before higher numbers (e.g., 10 appears before 20).
4. **Start Date** – Then sorted by start date if it exists, followed by
5. **Published Date** – Then sorted by publish date if it exists, followed by
6. **Last Modified** – Finally sorted by most recently updated

Tip: Leave it at 10000 which is off essentially, to use default sorting. Use increments of 10 (e.g., 10, 20, 30) to leave room for inserting items later.

Help text explaining the Order Override field and content sorting priority.
